

Problem of the Week  
Problem E  
What's Your Angle Anyway III?

$AB$  is a diameter of a circle with centre  $C$ .  $D$  is a point on the circumference of the circle other than  $A$  and  $B$ .

Determine the measure of  $\angle ADB$ .

If you need a hint, consider solving this week's Problem of the Week Problem D, "What's Your Angle Anyway II?"
